

ALASKA DEPARTMENT OF NATURAL RESOURCES
DIVISION OF FORESTRY
ALASKA INCIDENT BUSINESS MANAGEMENT HANDBOOK

CONTRACTOR AND EMPLOYEE PROPERTY CLAIMS

This section deals ONLY with claims filed by:

- Contractors for damage to equipment
- Employees for damage to or loss of personal property necessary for assigned work

This chapter does NOT deal with:

- Property or landowner damages as a result of the State's direct suppression efforts
- State or Federal property or equipment

Land or property damage of non-contractors as a result of the State's direct suppression effort is not subject to a claim and must be pursued through the courts. To file a claim for loss of or damage to state government property, please see Chapter 8 on Property Management.

Criteria for Filing and Approving Claim

Equipment furnished under a contractual agreement with the Division of Forestry may be subject to extreme environmental and/or strenuous operating conditions which could include, but are not limited to, unimproved roads, steep, rocky, brushy, hilly terrain, dust, heat, and smoky conditions. As a result, what is considered normal wear and tear under any agreement with the State of Alaska for fire suppression or other all risk incident actions is in excess of what equipment is subjected to under normal highway operations. The rates paid for the equipment reflects expected wear and tear due to adverse conditions under which the equipment is likely to be operated.

The Division of Forestry does not cover claims for normal wear and tear of personal clothing, gear, or equipment. In the event damage or destruction occurs, and it is determined the state had some responsibility in the loss, only personal clothing, gear, or equipment that is required for the performance of the job or contract, or are otherwise allowable in the provisions of this chapter, will be covered.

Responsibilities

State employees will:

- date the incoming claims upon receipt
- immediately notify the incident supervisor and submit the claim to that supervisor or to the nearest Area or Regional office
- **never** admit liability regarding any case
- not furnish information on accidents to unauthorized persons
- always obtain names and addresses of witnesses on all potential liability claims
- **never** instigate the filing of a claim by or for another person
- never voice his or her opinion about the validity of a claim or the likelihood of its outcome

**ALASKA DEPARTMENT OF NATURAL RESOURCES
DIVISION OF FORESTRY
ALASKA INCIDENT BUSINESS MANAGEMENT HANDBOOK**

- provide direct knowledge regarding the factual evidence of a claim in writing, signed and dated, with any pertinent names, addresses, phone #s, and incident #, through the same channels as the original claim.

Authorities

The Division's Regional Fire Management Officers have the authority to approve, deny, or settle claims for less than \$5,000. Claims greater than \$5,000 must be forwarded, through the Division Procurement Specialist, to the DNR Procurement Officer for consideration. In all instances, claims must be filed through an Area/Region office and on to the Regional Fire Management Officer. No claim may be approved or denied by an Area Office. In some instances claims under \$2,500.00 may be settled by a Procurement Unit Leader or a Finance Section Chief via the Equipment Use Invoice. See Small Claims Settlements on pages 3 and 4.

Any claim that has complex circumstances outside the parameter of the rental clauses will be forwarded to the Division's Procurement Specialist:

- if the State's responsibility is unclear
- if the claim is for more than \$5,000.00

These claims will be forwarded to the Division's Procurement Specialist with recommendations for resolution.

Filing a Claim

Please see page 6 for the process regarding filing contractual or employee claims. All claims need to be documented and filed by the claimant within 30 days of damage or loss. Detailed narratives stating facts and providing dates, times, names, phone numbers, and addresses of all involved parties are especially beneficial in the claims process. Photos and drawings also add substantial backup to understanding the circumstances in the case, and are highly encouraged.

It is always beneficial to have supporting documentation when filing a claim such as witness statements. Even if no one witnessed the actual event that led to the loss, it is still beneficial to have statements from individuals who may have knowledge of circumstances surrounding the loss. Be sure to have witness names and home unit information (addresses and phone numbers).

The Following Procedures are Required for All Claims

- Claimant fills out DOF "Property Loss/Damage Report" (see page 6 for example)
- Any State employee may receive a claim and then give it to the Procurement Unit Leader/Finance Section Chief or the Area Forester
- The claimant or the claimant's incident supervisor will complete the "Supervisor's Accident Investigation Report" (02-932)
- Get signed witness statements (printed home unit names, addresses and phone #s)

**ALASKA DEPARTMENT OF NATURAL RESOURCES
DIVISION OF FORESTRY
ALASKA INCIDENT BUSINESS MANAGEMENT HANDBOOK**

- Include narrative, if necessary, of the events
- Make copies for the administering Area/Region files
- Employee submits the claim through their home unit

Additional Requirements for Non-State of Alaska Fires

- Make copies for the finance unit on the incident
- Incident administering agency paperwork *may* be required

Additional Requirements for Contractor Claims:

- Owner of damaged property will get two bids for any claim over \$2,000.00
- Owner/contractor will submit claim to the administering Area Office

Levels of Claims

Claims \$1 to \$2,500 can be processed on the incident or through the Area/Region.

Claims \$2,500 to \$4,999 can be processed through the Area/Region.

Claims \$5,000 and above must be processed through the Area/Region and on to the DNR Procurement Officer.

Small Claims

For claims under \$2,500.00 and in instances where it is procedurally fair and in the best interest of the State, a Procurement Unit Leader or Finance Section Chief may authorize payment to settle a claim. These settlements may be used if the following are true.

- √ State had a responsibility, or State liability was evident, in the damage/loss
- √ A settlement is likely to limit greater liability or future liability to the state for the claim
- √ Both parties are available and able to reach natural justice
- √ Procurement Unit Leader or Finance Section Chief making a settlement is knowledgeable about the loss or damaged equipment

Situations such as replacement of minor parts or repairs to a piece of equipment not as a result of normal wear and tear would be reasons for a small claim. Settling small claims on an incident for equipment will be noted and paid on the Emergency Equipment Use Invoice OF-286, line 27. **Under no circumstance will claims be fragmented to keep the cost under \$2,500.00.**

**ALASKA DEPARTMENT OF NATURAL RESOURCES
DIVISION OF FORESTRY
ALASKA INCIDENT BUSINESS MANAGEMENT HANDBOOK**

Home Unit Procedures for All Claims

The Home Unit or Area Office is responsible for reviewing the claims it receives and assigning a person to investigate the circumstances surrounding the claim. A recommendation will then be forwarded with all original documentation to the Regional Fire Management Officer (FMO) for approval, denial, or forwarded on to the Department Procurement Officer. All documentation received by the Home Unit/Area Office will be copied and filed at the Area Office.

Employing the Use of an Adjustor

The Area/Regional Fire Management Officer (FMO) has the authority to institute the use of a claims adjustor when the number of claims exceeds Forestry's ability to handle them. In these instances the Area Office will order the services of an adjustor. The adjustor will review, investigate and make recommendations. The claims will then be forwarded to the Regional Fire Management Officer for final approval or denial if under \$5,000.00 or forward to the Division Procurement Specialist if over \$5,000.00.

Denial of Claims

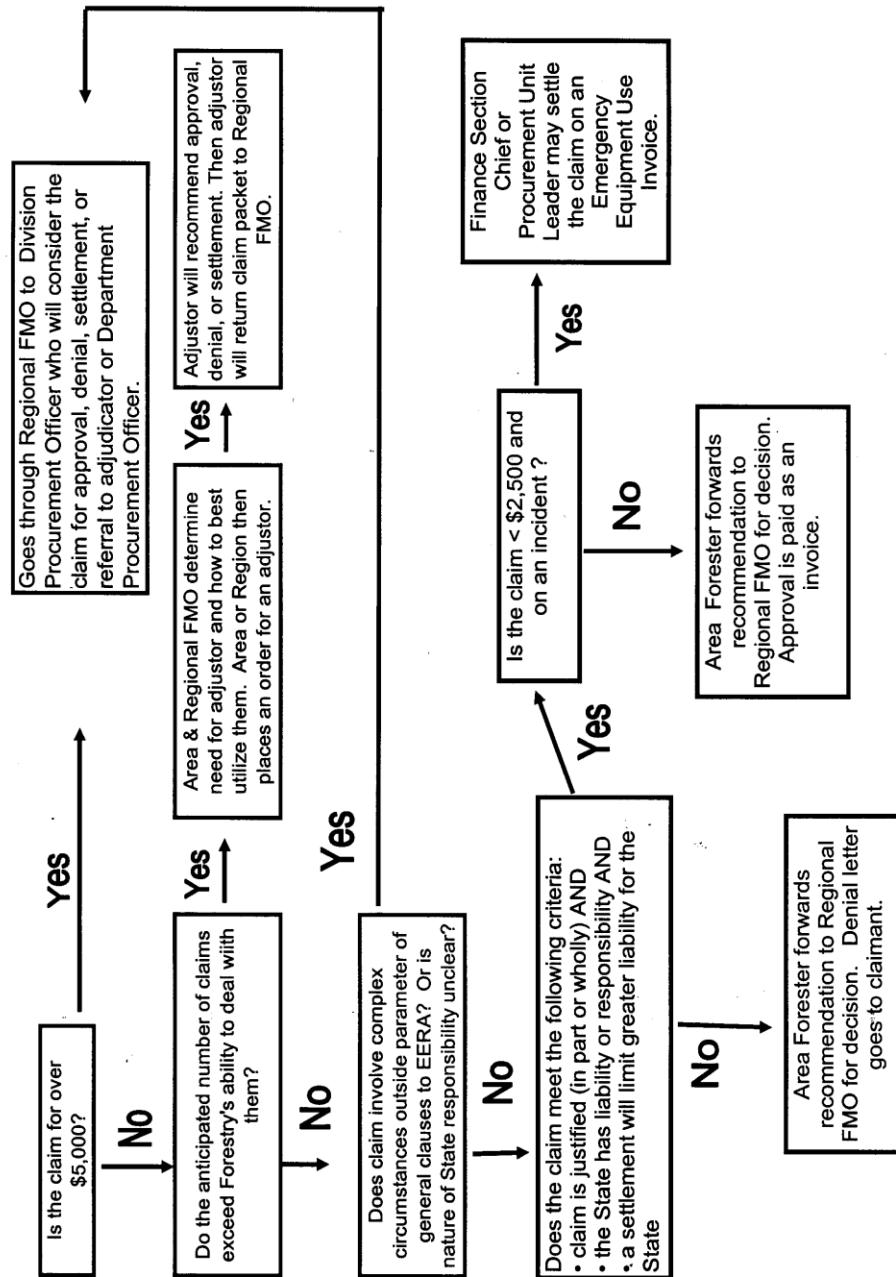

Vendors have a reasonable expectation to be informed of the reason that a claim is denied. Some reasons for denial might be:

- Damage does not exceed normal wear and tear for the conditions of use
- Facts do not demonstrate negligence by the State
- Information provided was insufficient detail for approval of a claim
- Financial documentation does not demonstrate relation to the equipment of the claim

If a claim is denied at the regional level, the claimant may appeal their claim to the DNR Procurement Officer in writing within 90 days as per AS 36.30.620.
